COMMONWEALTH BUREAU OF CENSUS AND STATISTICS
CANBERRA, AUSTRALIA

To be treated as strictly CONFIDENTIAL and NOT to be published, broadcast or cabled before NOON on FRIDAY 16 JANUARY 1970

EMPLOYED WAGE AND SALARY EARNERS : AUSTRALIA

NEW SERIES - JUNE 1966 TO JUNE 1969

A preliminary revision of the estimates of wage and salary earners in civilian employment for the period June 1966 to March 1969 was published on 5 September 1969. Those estimates, and others previously published in issues of the Employment and Unemployment bulletin (Ref. No. 6.4) to February 1969, have now been replaced by a new series. More comprehensive statistics, including particulars for the principal industry groups in each State and Territory, will be published shortly in a special bulletin, also going back to June 1966. Similar detailed statistics for current months will be published each month in the Employment and Unemployment bulletin. Revised seasonally adjusted estimates are being prepared and will be issued as soon as possible.

2. The new series are based on benchmarks derived from the results of the population census of June 1966. For the period subsequent to the census the employment data are obtained from three main sources, namely (a) current pay-roll tax returns, (b) current returns from government bodies, and (c) some other current returns of employment (e.g. for hospitals); the balance, i.e. unrecorded private employment, is estimated. Month-to-month changes shown by current returns are linked to the benchmark data to derive the monthly estimates. At June 1966 recorded employment obtained from the foregoing sources accounted for about 85 per cent of the total number of employees in the industries covered, as determined by the census.

3. The figures in this statement, except those in Table 4, relate only to civilian wage and salary earners, not the total labour force. They therefore exclude employers, self-employed persons, unpaid helpers and defence forces. Also excluded, because of the inadequacy of current data, are employees in agriculture and private domestic service, and some part-time employees. Although, as the result of the adoption of a new definition of the labour force in the 1966 population census, more part-time employees were included in the census benchmarks, it is not possible to allow completely in the post-censal estimates for the growth of part-time employment, particularly by persons working very few hours a week. Aborigines are included in the new series.

4. In due course the estimates for periods prior to the census of June 1966 will also be revised, but on a basis comparable with that of the 1961 census benchmarks, the information needed to revise these benchmarks on the 1966 census basis not being available.

NOTE. Any discrepancies between totals and sums of components are due to rounding.

Ref. No. 6.12

(a) Includes employees, within Australia, of government bodies (Commonwealth, State, local and semi-government) on services such as railways, tramways, banks, post office, air transport, education (including universities), broadcasting, television, police, public works, factories and munitions establishments, departmental hospitals and institutions, migrant hostels etc., as well as administrative employees. (b) Permanent defence forces in Australia and overseas. From July 1965, includes national servicemen enlisted in the Regular Army Supplement. Where the intake occurred at the end of the month, national servicemen have been included in the defence forces figures in the following month.
